

The new

EU BUDGET must CHANGE

to deliver a **SUSTAINABLE & CLEAN ENERGY UNION**

DO

Apply **Energy Efficiency** first for all spending plans and investment strategies

ENERGY EFFICIENCY

Promote **100% Renewables** by supporting decentralized and community owned renewable energy and a just transition helping regions to transform

DECARBONIZING THE ECONOMY

Invest in **Renewables** interconnection and storage

A FULLY INTEGRATED ENERGY MARKET

Fund clean **Zero-Carbon Technologies** development and their deployment

RESEARCH, INNOVATION AND COMPETITIVENESS

Ensure **Maximized Efficiency** and access to **Affordable Renewable Energy**

ENERGY SECURITY, SOLIDARITY AND TRUST

DO NOT

Do not design **Financing Schemes** that are unaffordable for households OR **Efficiency Measures** that benefit existing fossil fuel infrastructure

Do not lock in **Gas** or **Unsustainable Biomass**

Do not invest in **Fossil Fuel Infrastructure**

Do not finance false solutions such as **Carbon Capture and Storage** OR all conventional and unconventional **Fossil Fuels**

Do not increase **Energy Dependency and Insecurity** by investing in fossil fuel infrastructure

The EU budget 2021–2027 **must catalyze the transition away from fossil fuels** towards 100% renewables and fully energy efficient economies.
